

Hello!

On behalf of the Westminster Public Schools Foundation, we wanted to introduce ourselves and let you know the ways the Foundation supports the district and ways you can be involved!

The Foundation changes lives - one scholarship - one tutor - one pair of glasses at a time.

We raise money to support math tutoring, career and technical education, scholarships and the benevolent fund, which provides items like glasses and hearing aids for children who cannot afford them. And our efforts are paying off...we're seeing many students enrolled in the math academy, more students earning college credits while in high school, and more students applying for scholarships and going on to higher education.

We raise money, we champion public education, and we build partnerships between the community and our schools, driving resources into our classrooms.

Through our scholarship programs, we pay for items such as college credits and tuition, sports and activities fees, certifications and tutoring. We have awarded over \$1million scholarships. Benevolent funds help with medical and emergency needs for students. We are responsive to the needs of the District. With over 80% of the student population designated as low-income, we support efforts that maximize student potential. Our philosophy is - the most important day in a student's academic career is the day AFTER graduation...we help prepare them for that day and beyond.

To support students and teachers we look for support from those who understand the importance of education. We would like to encourage you to participate in the Workplace Giving Charitable Campaign for the Westminster Public Schools Foundation. Your contributions are tax deductible and are returned to our schools, staff and students. Last year we started the "Just Give \$5" campaign and had 50 new employees join. By contributing \$60 a year (\$5/month), we can continue to support the amazing work that is happening within our schools. Please join with us in support of the Westminster Public Schools students and get ready to watch the impact your dollars will make!

Sincerely,

Stephanie Baer, M.A.
